

RiverSafe Appoints New Sales Director to Drive Sales of Next-Generation Security Solutions

RiverSafe is expanding its award-winning team with a new sales director to drive net new business

London, UK – 5th February 2018 – RiverSafe, a leading cyber security, data analytics and cloud security consultancy, is pleased to announce that Mark Evans has been appointed as its new Sales Director for all of RiverSafe’s next generation solutions. Mark will be working directly with many of RiverSafe’s vendor partners such as AWS, Exabeam, Splunk and Palo Alto Networks, to drive new customer acquisition.

Mark Evans brings a wealth of experience to RiverSafe with over two decades in the cyber security industry. Mark is an accomplished senior salesperson with skills in managed security services and enterprise software. With a strong entrepreneurial spirit, Mark previously setup Integrity360’s UK operation, a security consultancy selling solutions to over 300 of Europe’s leading companies across multiple verticals including telecoms, banking, education and healthcare. In 2013 Integrity360 won the Allied Irish Bank Enterprise of the Year Award and has been consistently placed in the Deloitte 50 Ranking as one of the fastest growing technology companies in Ireland. During this time Mark created successful partnerships with key industry players such as Cisco and Splunk, and he will bring all this experience, knowledge and a strong network of contacts to RiverSafe.

Suid Adeyanju, Director of RiverSafe, comments: *“We are delighted that Mark has joined RiverSafe. He has an incredible history within the industry and his previous roles means that he is already well acquainted with many of the security solutions RiverSafe offers. With new partners like Palo Alto Networks joining our portfolio of market leading solutions, RiverSafe needed a strong sales director to bring these offerings to the widest possible installed base and Mark will help us deliver on our key goals in 2019 and beyond.”*

Mark Evans comments: *“I plan to take all of my experience gained from Integrity360 and previous roles and use this to expand RiverSafe’s horizons. RiverSafe has many fantastic solutions and services available and a strong team who have delivered proven results for customers. Cyber and cloud security is a constantly changing and evolving sector, and with RiverSafe’s help enterprises can confidently and efficiently deploy new solutions into their environment in order to alleviate cyber-attacks.”*

RiverSafe has proven expertise in both cyber and cloud security solutions and services ranging from SIEM to UBA solutions. RiverSafe’s robust security capabilities ensures that a customer’s network is working for, and not against, them. With cloud, customers are provided with the support they need in order to move applications and data safely to the cloud. If you are interested in finding out more please go to:
