RIVERSAFE

Carbon Reduction Plan

Supplier name: RiverSafe Ltd

Publication date: May 2025

Commitment to achieving Net Zero

RiverSafe Ltd is committed to achieving Net Zero emissions by 20**30.**

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2025	
Additional Details relating to the Baseline Emissions calculations. **Baseline emissions have not yet been recorded for a full year but are being assessed over the year of 2025 and will be reported in full within early 2026.**	
There is no historic baseline for scope1-3 emissions, however, these are being assessed over the year of 2025 and will be reported in early 2026 to begin comparison. This is also being supported by our ongoing ISO14001 certification.	
Baseline year emissions:	
EMISSIONS	**TOTAL (tCO_2e)**
Scope 1	**>1kgCO2e**
Scope 2	**1.32kgCO2e**
Scope 3 **(Included Sources)**	**TBC**
Total Emissions	**1.42kgCO2e**

RIVERSAFE

Current Emissions Reporting

Reporting Year: 2025	
EMISSIONS	**TOTAL (tCO_2e)**
Scope 1	**>1kgCO2**
Scope 2	**1.32kgCO2**
Scope 3 (Included Sources)	**TBC**
Total Emissions	**1.42kgCO2e**

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next five years to **0**tCO_2e by 20**30**.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed or implemented since the 20**25** baseline.

We have completed an assessment with private company Earth 51, achieving a silver status for our strategy towards Carbon Reduction and overall Sustainability within 2024.

Within 2025, we are completing certification of ISO14001 and as such are tracking our carbon emissions, this certification will also validate the other initiatives we undertake as a business to reduce our carbon emissions and work towards a sustainable future, such as:

- Travelling to work and client sites only using electric vehicles or public transport as per policy
- Planting trees on employees birthdays
- When travelling outside of the UK leveraging net 0 options
- Providing snacks and drinks that are also supporting net 0 objectives in our offices
- Recycling all equipment possible and reducing waste as much as possible
- Using lighting controls in all offices that respond to movement and have automatic shut off

RIVERSAFE Sierra Quebec Bravo, 77 Marsh Wall, London, E14 9SH

Future carbon reduction initiatives
In the future we hope to implement further measures such as:

- Beginning a salary sacrifice scheme to allow employees better access to electric vehicles and reduce public transport usage

Declaration and Sign Off

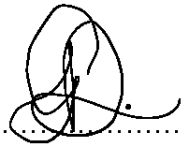

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standards for Carbon Reduction Plans.

Emissions have been recorded and will be repprted in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard[1] and uses the appropriate Government emission conversion factors for greenhouse gas company reporting[2].

Scope 1 and Scope 2 emissions will be reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard[3].

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
